Video Instruction Guides
Go to http://whalen.showuhow.com to view step-by-step instructional videos for assembling and installing your product. Enter the following product number on the ShowUhow homepage.

WMCXL-3

LOT NUMBER:   DATE PURCHASED:__/__/___
1. Please read the Assembly Instructions prior to assembling this product.
2. Remove all hardware from box and sort by size.
3. Check to see that all hardware and parts are present BEFORE assembling.
4. Ask a friend to assist you with the assembly of this furniture.
5. To avoid damage, assemble the product on a sturdy, level and protective surface.
6. Please wait until all steps are completed before fully tightening bolts.
7. Make sure all bolts are tightly fastened before the unit is used.

**WARNING**

THIS UNIT IS NOT INTENDED FOR USE WITH CRT TVs. USE ONLY WITH FLAT PANEL TVS AND AUDIO/VIDEO EQUIPMENT MEETING RECOMMENDED SIZE AND WEIGHT LIMITS. NEVER USE WITH LARGER/HEAVIER THAN RECOMMENDED FLAT PANEL TVS OR EQUIPMENT. TO AVOID INSTABILITY, PLACE FLAT PANEL TV IN CENTRE OF UNIT; CRT TVS, IMPROPERLY POSITIONED FLAT PANEL TVS, OR FLAT PANEL TVS OR OTHER EQUIPMENT THAT EXCEED RECOMMENDED SIZE AND WEIGHT LIMITS COULD FALL OFF OR BREAK THE UNIT, CAUSING POSSIBLE SERIOUS INJURY.

**GENERAL INFORMATION, TIPS & TRICKS**

- **FITS UP TO MOST 56” FLAT PANEL TVs**
  - MAXIMUM LOAD 135 lb. (61.2 kg)

- **FITS UP TO MOST 56” FLAT PANEL TVs**
  - WITHOUT SWIVELING BRACKET
  - MAXIMUM LOAD 135 lb. (61.2 kg)

- **PLACE TV BEHIND STOPPER**
  - MAXIMUM LOAD 50 lb. (22.6 kg)

This product is sold with a Tipping Restraint Hardware Kit. You must install the Tipping Restraint Hardware between the wall and the TV console to prevent any accidents or damages. When properly installed, this restraint can provide protection against the unexpected tipping of the unit due to small tremors, bumps or climbing. The restraint is only a deterrent and is not a substitute for proper adult supervision. Use of tip-over restraints may only reduce, but not eliminate, the risk of tip-over.

Please call for replacement parts or assistance: 1-866-942-5362
Parts and Hardware List

Please read completely through the instructions and verify that all parts listed are present before beginning assembly.

A- Top Shelf Frame (1)
B- Middle Shelf Frame (1)
C- Bottom Shelf Frame (1)

Assembly Instructions

Note: Please do not fully tighten all bolts until you finish assembling all parts. Once assembled, go back and fully tighten all bolts. This will make it easier during assembly of unit.

1. Unpack the unit and confirm that you have all the hardware and parts required.
2. Choose the option suits your needs. Locate Long Spine (D) or Short Spine (D1) and set back face down on a scratch free surface as shown in detail #1.
3. Align and attach three Shelf Frames (A, B and C) to the Spine using 1-1/4” Bolts (3) with Lock Washers and Flat Washers (5 and 6) through the pre-drilled holes on back rail into the threaded inserts included in the Spine. Ensure the end bracket is positioned with two holes facing the floor as shown in detail #1.
4. Screw Floor Leveler (11) to the center support of the Bottom Shelf Frame (C) by rotating clockwise. See detail #1A.

Assembly Instructions

5. Stand the unit upright.

6. Align and attach Left Leg (E) to three Shelf Frames (A, B and C) by inserting the 3/4” Bolts (2) with Washers (5 and 6) through the end bracket holes of shelf frames into the threaded inserts on the Left Leg. Make sure the top surface is flush with Top Shelf Frame (A). See detail #2. DO NOT tighten the bolts.

7. Repeat last step with Right Leg (F). Make sure the gaps and offsets between the wooden front rail of Top Shelf Frame (A) and the Legs (E and F) are the same. Loosen the bolts on the end brackets and wooden front rail and adjust if necessary.

Assembly Instructions for Table Top

14. Put the Suction Cups (1) firmly into top holes of the Middle Shelf Frame (B) and Bottom Shelf Frame (C) as shown in detail #6.

15. Screw 8 Glass Raisers (10) onto the top holes of Top Shelf Frame (A) and both Legs (E and F). Make sure they go all the way in. See detail #6.

16. Place Top Glass (G) and Glass Shelves (H) in place starting from the Bottom Glass Shelf as shown in detail #6. Make sure the glass is properly centered and the black side of glass is down. Push each glass all the way back against the Spine. Also, be sure to press down evenly and firmly each glass onto the Suction Cups or Glass Raisers to make sure they securely rest onto the Suction Cups.

Note: Make sure that the Suction Cups go all the way into the pre-drilled holes to prevent the glass shelf from falling and getting damage. If glass is scratched you can minimize the damage by using a BLACK marker and filling in scratched area from underneath.

Assembly Instructions for Table-top

17. Position the assembled Table Top in your desired location against the wall. Now follow the instructions printed on the plastic bag in order to mount the Tipping Restraint Hardware Kit to the Spine (D1) properly. As shown in detail #7.

**NOTE: YOU MUST USE THIS TIPPING RESTRAINT TO ATTACH THIS UNIT TO THE WALL, TO PREVENT ACCIDENTS AND/OR INJURIES.**

18. The Table-top is ready for use now if you only want to place the TV on the console top. Be sure to position your TV in center of console with no overhang on either side.

Tools required: Allen Wrench (provided), Phillips Screwdriver, Mallet, Power Drill, and 3/8” Drill Bit.
19. Align and attach Swiveling Bracket (M) to the top of Long Spine (D) using six 3/4” Bolts (2) with Washers (5 and 6). Make sure the pivoting bolt head is up. See detail #8.

Note: The Spine can provide four height options for your TV set. Refer to your TV size, adjust the Swiveling Bracket at your desired height to offer optimum viewing.

Mounting Monitor Bracket to a television with a flat back

Note: For televisions with a curved back or recessed back proceed directly to step #24.

21. Determine the correct diameter of the bolt your TV requires by hand threading them into the threaded insert on the back of the TV. If you encounter any resistance, stop immediately. If you are unable to find the correct bolt consult a local hardware store.

22. Once you have determined the correct diameter Bolt, follow the appropriate diagram below; thread the Short Bolt through the appropriate Lock Washer, Flat Washer, the Monitor Bracket (OL/OR), and into the upper threaded inserts of TV. Make sure the hook pointing towards the bottom of TV and the tilt adjustment knob facing outside. As shown in detail #10A. Note: Lean the TV up against a wall or other solid surface when attaching with the Monitor Brackets. DO NOT place the TV face down on the glass this may cause permanent damage.

23. Proceed to insert the long Bolt through the appropriate Lock Washer, the Flat Washer, the slot of Monitor Bracket (OL/OR), a second Flat Washer (M4/M5 Diameter Bolts only), appropriate Spacer, and into the bottom threaded inserts of TV. As shown in detail #10. Make sure the Monitor Brackets (OL/OR) are centered and level with each other. Tighten the bolts securing the Monitor Brackets to the TV.

NOTE: If mounting your TV to a wall, proceed to PAGE 19 once you complete installation of the Monitor Brackets.
24. Determine the correct diameter of the bolt your TV requires by hand threading them into the threaded insert on the back of the TV. If you encounter any resistance, stop immediately. If you are unable to find the correct bolt consult a local hardware store.

25. Once you have determined the correct diameter bolt, follow the appropriate Diagram below, thread the Bolt through the appropriate Lock Washer, Flat Washer, the Monitor Bracket (OL/OR), a second Flat Washer (M4/M5 Diameter Bolts only), appropriate Spacer and into the threaded inserts of TV. Make sure the hook pointing to the bottom of TV and the tilt adjustment knob facing outside. See detail #11.

**WARNING** DO NOT LAY THE TELEVISION FACE DOWN ON THE GLASS

26. Make sure the Monitor Brackets (OL/OR) are vertically centered and level with each other. Tighten the bolts securing the Monitor Brackets to the TV.

NOTE: If mounting your TV to a wall, proceed to PAGE 19 once you complete installation of the Monitor Brackets.
MAKE SURE ALL BOLTS ARE TIGHT AND SPINE IS AT A 90 DEGREE ANGLE AND USING A QUALITY LEVEL TO VERIFY THE MOUNTING FRAME IS LEVEL PRIOR TO INSTALLATION OF TV.

27. Once the Monitor Brackets (OL/OR) are attached onto the back of television, ask for assistance to lift the television up to attach the Monitor Brackets onto the XYZ Mounting Frame (N). Place the hooks on Monitor Brackets over the Mounting Frame then lower them onto the bars of Mounting Frame. Loosen the Lock Bolt pre-attached on the Monitor Brackets to ensure an easy fit at the bottom hooks. Proceed to center the television.

28. Once the television is in place, tighten both Lock bolts with a long Phillips Screwdriver until they hit underside of XYZ Mounting Frame (N) to ensure your TV is safe and secure. See detail #12.
Assembly Instructions for Option 1: Console with Swinging Floater

29. The Monitor Brackets (OL/OR) can tilt up to 11° downward and 5° upward, depending on your optimum viewing position. Have your assistant hold the TV steady before you start to adjust the tilt. Simply reach behind the TV and turn both Tilt Adjustment Knobs with 3/16” Allen Wrench to adjust your TV to provide optimum viewing and minimize glare. When the TV is in its intended position, tighten both lock bolts to secure it in place. See detail #13.

Note: If you need to remove the TV, make sure both Lock Bolts are disengaged fully.
30. Repeat steps 12 thru 16 to attach the Cable Controls (P) and install Top Glass (G) and Glass Shelves (H) in place.

31. Carefully move the console and position in your desired location against the wall. Now follow the instructions printed on the plastic bag in order to mount the Tipping Restraint Hardware Kit to the Spine properly. As shown in detail #14.

**Note:** You must install the Tipping Restraint Hardware with the unit in use to prevent any accidents or damage to the unit.

32. You can enjoy your home entertainment center now. Swivel left-or-right for optimum viewing control.

**Tools required:** Allen Wrench (provided), Phillips Screwdriver, Mallet, Power Drill, and 3/8” Drill Bit.
Assembly Instructions for Universal Wall Mount

Installing XYZ Mounting Frame onto WOODEN STUD WALL

33. The XYZ Mounting Frame (N) must be mounted to two Wood Studs at least 12” apart, using a high quality Stud Finder to locate the two adjacent studs. After you have located the studs, verify with a nail for added security. See detail #15A.

34. Pre-drill a 2-1/2” deep hole at the desired height in each stud using a 3/16” drill bit, make sure that the holes are centered in the studs and level with each other. Use the XYZ Mounting Frame (N) as a template to mark the corresponding location for the bottom holes in each stud, drill holes 2-1/2” deep with the 3/16” drill bit at the marked location.

35. Orient the Mounting Frame with the slotted plate against the wall, and using four Lag Bolts (8) with Lag Bolt Washer (7) through the slots of “Z” Plate on Mounting Frame into the holes in the wall, secure the mounting frame to the wall as shown in detail #15B.

**WARNING** Do not over tighten the Lag Bolts. Tighten Lag Bolts only until the Lag Bolt Washer is pulled firmly against the “Z” Plate of Mounting Frame. If there is a layer of drywall or other material, this drywall or other material may not exceed 5/8 inch in thickness. Failure to heed this caution may result property damage and/or personal injury.

Assembly Instruction for installing XYZ Mounting Frame onto BRICK, SOLID CONCRETE OR CONCRETE BLOCK

36. Use the XYZ Mounting Frame (N) as a template, mark six holes location on the wall, three in the top row and three in the bottom row of slots. Make sure that the holes are level and there is at least 6” between any two holes, pre-drill these holes with a 1/2” masonry bit to at least 2-1/2” in depth.

37. Insert a Concrete Anchor (9) into each of these holes; make sure they are completely seated and flush with the concrete surface, even if there is a layer of drywall or other material in front of the concrete.

38. Orient and attach the XYZ Mounting Frame (N) to the wall using six Lag Bolts (8) and Lag Bolt Washers (7) through the slot of “Z” Plate on Mounting Frame into the Concrete Anchors (9) in the wall as shown in detail #16. Make sure the slotted plates against the wall.

![Assembly Diagram](image)

**WARNING** Maximum weight 135 lb. (61.2 kg)

**WARNING** Concrete Anchors should only be used for masonry mounting. NEVER use the wall anchors to mount the unit to drywall.

Assembly Instructions

39. Once the Monitor Brackets (OL/OR) are attached onto the back of television, ask for assistance to lift the television up to attach the Monitor Brackets onto the XYZ Mounting Frame (N). Place the hooks on Monitor Brackets over the Mounting Frame then lower them onto the bars of Mounting Frame. Loosen the Lock Bolt pre-attached on the Monitor Brackets to ensure an easy fit at the bottom hooks. Proceed to center the television.

40. If you want to adjust the tilt, ask for help from your friends to hold the TV steady before you start to adjust. Simply turn the both Tilt Adjustment Knobs on Monitor Brackets (OL/OR) with 3/16" Allen Wrench to adjust your TV to provide optimum viewing and minimize glare. When the TV is in its intended position, tighten both Lock bolts with a long Phillips Screwdriver until they hit underside of XYZ Mounting Frame (N) to ensure your TV is safe and secure on the wall. See detail #17.

41. Place assembled console under your TV set as shown in detail #17A. Finally, connect the A/V and power cables to your TV. You are now ready to enjoy your wall-mounted Flat Panel TV.
Care and Maintenance

- Use a soft, clean cloth that will not scratch the surface when dusting.
- Use of furniture polish is not necessary. Should you choose to use polish, test in an inconspicuous area first.
- Using solvents of any kind on your furniture may damage the finish.
- Never use water to clean your furniture as it may cause damage to the finish.
- Always use coasters under beverage glasses and flowerpots.
- Liquid spills should be removed immediately. Using a soft clean cloth, blot the spill gently. Avoid rubbing.
- Always use protective pads under hot dishes and plates. Heat can cause chemical changes that may create spotting within the furniture finish.
- Stains or marks from crayons or ink markers will be difficult to remove.
- In the event that your furniture is stained or otherwise damaged during use, we recommend that you call a professional to repair your furniture.
- Check bolts/screws periodically and tighten them if necessary.

Further advice about furniture care

It is best to keep your furniture in a climate-controlled environment. Extreme temperature and humidity changes can cause fading, warping, shrinking and splitting of wood. It is advised to keep furniture away from direct sunlight as sun may damage the finish. Proper care and cleaning at home will extend the life of your purchase. Follow these important and helpful tips that will enhance your furniture as it ages.

A Touch-up Pen has been provided to repair any small nicks or scratches that may occur during assembly or shipping.

We hope you enjoy your purchase for many years.
Thank you for your purchase.

QUALITY GUARANTEE

We are confident that you will be delighted with your Whalen Furniture purchase. Should this product be defective in workmanship or materials or fail under normal use, we will repair or replace it for up to one (1) year from date of purchase. Every Whalen Furniture product is designed to meet your highest expectations. We guarantee that you will immediately see the value of our fine furniture.
This warranty gives you specific legal rights and you may also have other rights which vary from province to province (state to state).
